

COLOMBO EREDI

Leading Second-hand Solutions Worldwide
for Wood Based Panels Industries

I Colombo Eredi Team

COLOMBO EREDI is Leading Second-hand Solutions Worldwide. Our Company has successfully been operating on the international market since 1961 for the supply of second-hand and reconditioned Plants,

- Plywood Plants
- Rotary Veneer Plants
- Automatic Veneer Stackers Plants
- Veneer Sliced Plants
- Drying Plants
- Blockboard Plants
- Chipboard Plants
- Particleboard Plants
- Medium Density Fiberboard (MDF) Plants
- Decorative Laminating Plants
- Impregnation Plants
- Melamine Plants
- Profile Plants
- Others Plants

Complete Lines,

- Debarking Lines
- Peeling Lines
- Slicing Lines
- Drying Lines
- Glue Veneer Splicing Lines
- Press Lines
- Sanding Lines
- Lines according to Your requirements

Single Machines,

- Chipping Machinery
- Veneer Clipper
- Clipper with Feeding and Outfeeding
- Rotary Clipper
- Head Clipper Machinery
- Patching Veneer Machinery
- Guillotine
- Veneer Splicer
- Glue Spreader
- Automatic Squaring Device
- Knife Grinding
- 300 different machines in our Stores.

In Italy COLOMBO EREDI operates in four wide factories and with our big stock of machines manufactured by first class Italian and European producers, we are in a position to fulfil all different production and investment requirements.

We are capable of supplying the machines as they are or fully reconditioned with the assistance of skilled engineers for the set up and commissioning.

I Our Services

Our service is "All Inclusive" and comprehends:

- Consulting:

It represents the initial phase to understand the real aims and requirements of our customers. The study of feasibility allows to reach the maximum satisfaction and the full consistency of Your projects.

The experience acquired in all sectors allows us to solve the different problems through the optimal solutions to grant a high-quality production with the lowest investment.
- Engineering:

The planning of the plants in function of Your demands requires a careful service of Engineering established to allow You to be able to obtain the maximum production in the times. Our engineers gifted with of the most sophisticated tools are able to nurse You from the advice phase to the services post sales.
- Installation:

COLOMBO EREDI TEAM, with its qualified staff, follows directly the installation of Your plants from the best solution where to put the plants to the placing in function.
- Assembly and Testing:

The acquired experience in further on 40 years of activity, makes this phase a particular and constructive moment of comparison to consolidate a narrow relationship with our customers. The dedicated attention to Your requests together with our professionalism allow us to complete the tests of the plants in a short time.
- Constructions:

In the last years, our Firm has realized for our customers, some parts of new plants together with Second-hand fully reconditioned Plants. In this field, an excellent success, it has noticed our Automatic Veneer Stackers, which the best answer to the continually improved performances of our peeling lines and pneumatic clippers. This model allows the sorting and stacking, according to quality or size, without causing additional splits in the veneers during the stacking operation. The cut veneer which comes from the clipper or from the dryer is transferred to the stacker by means of a double connecting conveyor.

The stacker is compound of movable elements. These elements are equipped with chambers inside which a depression is maintained by means of centrifugal aspirators. The classification of the veneers is automatically carried out according to their different widths.

The number of stacking points and their sizes can be arranged according to the specific requirements.

- Reconditioning: The reconditioning is the phase more delicate than our transformation process.
COLOMBO EREDI TEAM avails oneself expert staff is able to face all the situations, planning mechanical, electric, hydraulic engineering plants and in case supplying spare parts directly from its manufacturers.
Reconditioned machines are supplied with full guarantees.
- Technical modifications: COLOMBO EREDI FIRM intervenes on Your equipments to render it more functional and to increase the productivity of Your plants. Small modifications can slow down their natural ageing, permitting to avoid an expensive investment to purchase a new plant.
- Electronic improvements: Technical modifications can be accompanied by electronic improvements, as a new plc, software.
Our engineers continually study, new solutions to propose to our customers, testing them on Your plants and trying to satisfy Your complete requirements.
- Training of your operative staff: The aim is to train Your operative staff in such a way as to teach them the correct operation of plant and how they must intervene in case of necessity.
- Spare parts: COLOMBO EREDI Firm disposes wide storehouse of spare parts, with which we are able to carry out Your order in short time.
- Assistance: COLOMBO EREDI occupies oneself with Your plant through a careful service that comprehend On-site, Telephonic or Web-Mail Assistance.
- Dismantling: COLOMBO EREDI buys Your Single Machinery or Complete Plants and we directly proceed to dismantle Your equipments.
We are able to make this operations also for specific needs of our cutomers.
- After Sales Services: You will not alone after to have consulted us, because our services continue also after Your purchases.
- Logistics: COLOMBO EREDI, in co-operation with main carriers, is able to supply a careful, quick service, reaching their customers in all parts of the world.

COLOMBO EREDI is Your partner in Wood Industries and the satisfaction of our customers is Your starting-point.

Any of Your problems is our problem, choose COLOMBO EREDI, choose First Quality for Your equipments.
